To use a computer to create a piece of music

- To listen to music
- To say how music can make us think and feel
- To recognise that music is made by humans
- To describe how music can be used in different ways
- To identify that there are patterns in music
- To show how music is made from a series of notes
- To consider how different musical sequences create different effects
- To create music for a purpose
- To review and refine our computer work

Store/retrieve – KS1
- To recognise that information on a computer can be stored
- To explain that information (work) on a computer can be saved
- To explain that stored information (work) can be retrieved, edited, and resaved

Share – KS1
- To recognise that people around me can view my screen to see my work
- To recognise that my work can be printed and shared
- To recognise that my work can be shared between devices
