Learning graph
Year 4 – Data logging

To suggest questions that can be answered using a given data set

To identify the data that we need to answer questions

To use a digital device to collect data automatically

To identify that sensors are input devices

To use a larger data set to find information

To explain that a data logger captures ‘data points’ from sensors over time

To use a computer program to sort data by one attribute

To present data in a graph

To export information in different formats

To choose how often to automatically collect data samples

To present data in a table

To explain that a sensor can be used as an input device for data collection

To identify that sensors are input devices
